

Elegant Custom Garage Doors & Gates

ASTM Glass Standards — Summary for Homeowners & Dealers

ASTM International develops standards to ensure glass quality, safety, and consistency. Elegant Custom Garage Doors & Gates uses glass manufactured in accordance with key ASTM standards, including:

- ASTM C1036 – Standard Specification for Flat Glass
- ASTM C1048 – Standard Specification for Heat-Treated Flat Glass
- ASTM C1172 – Standard Specification for Laminated Architectural Glass

Inspection Criteria (per ASTM guidelines)

- Glass is inspected from **10 feet away** in normal daylight, not direct sunlight.
- **Minor blemishes, scratches under 3 inches, or natural variations** in color/reflectance that are not visible under the above conditions are not defects.
- **Variations in color or reflectance** when viewed against a uniform opaque background are not considered defects.

Disclaimer

This document is a **summary of ASTM standards** for customer education. For complete technical details, official ASTM standards are available for purchase at www.astm.org.
